

COVER CROPPING OPPORTUNITIES IN SPECIALTY CROPS

a Webinar and Virtual Site Visit Series: FALL/SPRING 2020/21

Presented By

Contra Costa County Resource Conservation District &
UC Cooperative Extension's Ag Crops Program

Cover Cropping on Small and Urban Farms

SATURDAY OCTOBER 24TH, 10–11:30AM

Krystin Leach practices permaculture, organic and traditional Korean farming methods at Namu Farm, a two-acre organic farm that Leach runs in partnership with the restaurant Namu Gaji. Leach grows over 60-80 crops each year and is an avid seed saver of Korean specialty crops. Leach employs cover cropping methods like cereal heavy cover cropping with plants like barley, oats, Dundale peas and common vetch. She'll discuss choosing cover crop, no till systems, residue management and how root biomass builds organic material.

[Webinar Offered via ZOOM and FREE with Registration.](#)
